LESS LETHAL

Monadnock
The Monadnock® AutoLock® X3™ HG incorporates improvements found in the AutoLock X3™ series of batons, along with larger diameter shafts for those who prefer a baton with a stouter feel. Some of the features found in the X3 HG are an integrated nose guide for more efficient holstering and grip protection, improved positive locking design for reliability, a more stable feel with tightened tolerances and a corrosion-resistant finish and components. See our website for more information.

### AUTOLOCK® X3™ HG

**Model** | **Length** | **Weight** | **Finish** | **Grip Style** | **Tip Style** | **End Cap Style** | **Holder Plain**

The Monadnock® AutoLock® X3™ expandable baton improves its original positive locking design with notable improvements which include an updated cam and stainless steel ball bearing design which offers reliably consistent locking action. A more solid feel in the hand when performing or demonstrating techniques and a new smooth plastic nose on the baton handle for more efficient holtering and transition from the holster to the hand. New blackened electroless nickel finish improves corrosion resistance on the inside and outside of the baton. See our website for more information.

**AutoLock X3 Batons**

- **TIP OPTIONS**
  - Available with either a Safety Tip®, 3xT Tactical Targeting Tip, or a Power Safety Tip® (shown here)

- **BLACK ELECTROLESS NICKEL FINISH**
  - Improves corrosion resistance on the inside and outside of the baton

- **SMOOTH PLASTIC NOSE**
  - Featured on the baton handle for more efficient holtering and transition from the holster to the hand

- **IMPROVED POSITIVE LOCKING DESIGN**
  - An updated cam and stainless steel ball bearing design offers reliably a reliably consistent locking action when performing or demonstrating techniques

- **END CAP OPTIONS**
  - The patented AutoLock® baton features a push button in the end cap to easily close the baton after it has been deployed
  - Baton is shown with optional Wedge™ Baton Cap accessory
  - Hindi Baton Cap™ accessory also available

- **GRIP OPTIONS**
  - Available with either Super Grip® (shown here) or firm Foam Grip

The AutoLock® II baton features patented AutoLock technology with a newly designed cam and stainless steel ball bearing which improves the locking action and baton stability.

**POWER SAFETY TIP®**
The Power Safety Tip® provides a weight-forward balance and the ability to draw the baton in a passive manner.

**BLACK ELECTROLESS NICKEL FINISH**
Improves corrosion resistance on the inside and outside of the baton.

**WEDGE™ BATON CAP**
Features an integrated Wedge™ Baton Cap for enhanced baton retention.

**POSITIVE LOCKING DESIGN**
The patented cam and ball-bearing locking mechanism ensures the baton will stay locked open while striking, blocking or jabbing.

**FOAM GRIP HANDLE**
The Foam Grip offers the highest tear strength allowing for quickest access from the Front Draw® Holder.

Classic Friction Lock Batons

**CLASSIC FRICTION LOCK BATONS**

Classic Friction Lock Batons

**END CAP OPTIONS**
Standard Bore Guide End Cap centers the tip and shaft over an internal retention spring. Due to the reliable design of these batons, repairs are rarely needed.

Choose from the optional Wedge™ Baton Cap or Hindi Baton Cap™ accessories for enhanced baton retention.

**FINISH OPTIONS**
Mariner Series available in Nickel or Detective® Series available in Black Chrome (shown here).

**FRICTION LOCKING TECHNOLOGY**
The use of precision dies forms concentric tapers which significantly improve the lock open function of Monadnock batons.

**FOAM GRIP**
Offers the highest tear strength allowing for quickest access from the Front Draw Holder.

SX & MX SERIES

- Uses a pin and spring to create a mechanical (or positive locking) mechanism that keeps baton open and makes it easy to close
- Baton locks in handle and may be locked in the extended open position with the push of a button
- Weight-forward shaft technology for increased “knock-down” power
- Aluminum polycarbonate composition impervious to rusting
- Model 2502: 24” closed and expands to 36” in the open position; can be used as a straight baton closed and a riot baton in the open position
- SX Baton models available in 1.25” diameter; MX Baton models available in 1” diameter

Monadnock® offers a wide selection of baton holders in different styles and materials to fit the needs of each of its batons. Safariland® and Bianchi® Duty Gear also offer baton holders for several Monadnock baton styles.

**BATON ACCESSORIES**

**FRONT DRAW® BATON HOLDER**
- Designed with clip-on backs specifically for easy removal from a duty belt
- Made from durable polycarbonate, all holders feature a molded tension spring for baton security
- Choose from three models:
  - 360° with 8 locking position
  - 45° with 2 locking positions
  - 90° swivel providing the ability to lock at any preferred angle
- Fits 2.25” (58mm) belt widths

**SIDE-HANDLE BATON HOLDER**
- Designed with the Safariland® 774BL belt clip and retention clip for cross draw carry (right hand model will sit on left side of body and left hand model sits on right side of body)
- 90° swivel provides the ability to lock at any preferred angle
- Available for both PR-24® and Control Device batons in both left- and right-handed versions
- Unique retention device secures baton by side-handle for security
- Fits 2.25” belt widths

**HINDI BATON CAP™**
- Offers enhanced baton retention and maximum striking power during physical altercations while being safer to the suspect without limiting the use of force

**WEDGE™ BATON CAP**
- This tapered design offers a natural grip for maximum baton retention while in the field or performing techniques in a training environment

---

**3035 BATON HOLDER**
- Low-profile design
- Fits most 1 1/16” expandable batons
- User-adjustable design to customize baton retention
Monadnock batons feature a wide variety of grips, tips and finishes to allow you to choose the tool that best fits your duty requirements.

**TIPS**

- **Standard Steel Tip**
  Allows for opening the baton in a high-profile manner; may gain psychological advantage for officer over subject.

- **Safety Tip®**
  Reduces sharp edges; urethane covering allows passive drawing of the baton.

- **Power Safety Tip®**
  Engineered to put more weight forward to better balance the baton in the hand and improve kinetic energy transfer at the moment of impact. The larger tip surface may turn a subject's pockets inside out, reducing the risk of getting stuck with sharp objects.

- **3xT Tactical Training Targeting Tip**
  Featuring the Power Safety Tip that helps criminal justice professionals improve their striking skill because they can clearly see the track of the baton’s tip during demonstrations, practice and/or in the street. Lime green only.

**GRIPS**

- **Foam Grip**
  Offers the highest tear strength and allows quick access from the Front Draw® Holder.

- **Super Grip®**
  The fluted surface texture provides excellent baton retention in and out of the holder.

- **Knurled Grip**
  The knurled grip enhances baton retention while performing strikes, blocks or jabbing techniques.

- **Grenade Grip**
  Offers a ridged handle design for a sure grip.

**FINISHES**

- Black Chrome
- Polycarbonate
- Nickel
- Black Anodized Aluminum
- Blackened Electroless Nickel
The finest training aids for the finest products. Proper training with the right tools makes all the difference. Our line of practical training aids significantly enriches learning during practice exercises. Resistance training builds confidence. Our Universal Training Bags and foam batons can be used during dynamic or scenario training to improve skills and reduce the risk of injury.

**Ultimate Straight Training Baton**
- Durable DuPont™ nylon cover
- 1/2” closed high-density cell foam
- Tip dipped in vinyl
- Energy absorbing construction allows scenarios to be performed with greater ease and comfort

**Ultimate Side-Handle Training Baton**
- Durable DuPont™ nylon cover
- 1/2” closed high-density cell foam
- Tip dipped in vinyl
- Energy absorbing construction allows scenarios to be performed with greater ease and comfort

**Side-Handle Training Baton**
- High-density, closed-cell white foam training side handle baton
- Flexible for lower impact while practicing techniques

**MFTB Straight Training Baton**
- Lightweight, open-cell foam
- For performing dynamic training exercises
- Economical

**Straight Training Baton**
- High-density, closed-cell foam white training baton
- Flexible design for lower impact while practicing techniques

Training batons are recommended for use with static dynamic baton training.

**Universal Training Bag 2 (UTB2)**
- Features a high-tech Force Deceleration Core to dissipate training blows from knees, elbows, fists or training-baton strikes with ease and comfort
- Offers six hand positions to create multiple target positions around the human body, which develops target acquisition and application skills for more realism in training
- Easy to carry and store

**5002 Universal Training Bag (UTB)**
- Helps bridge the gap between static and dynamic movement in training
- Tactically used for baton physical encounter training:
  - Simulated training scenarios
  - Punching, kicking, elbowing, kneeling, etc.
- Action-reaction response drills, including unarmed self-defense training and baton training
- Easy to carry and store
HARD SHELL RIOT CONTROL SYSTEM

The cost-effective, lightweight ExoTech® System offers hard-shell protection without sacrificing mobility and can be quickly donned or doffed with ease for rapid riot control response. Each piece of the ExoTech system fastens and adjusts quickly with durable polypropylene and elastic straps with hook and loop closures, allowing a custom fit for a wide variety of body types. The contour-molded polyethylene outer shell provides substantial protection from blunt force trauma.

TS70 HARD-SHELL SHIN GUARD
- Hard polyethylene shells with interior leg-brace support can safely withstand a substantial blow to the leg from non-ballistic weapons or flying debris
- Includes adjustable, removable foot protector
- Non-reflective outer surface

EFP150 FOREARM
- Polyethylene outer shell
- EVA foam & polyurethane sponge padding
- Mesh inner lining

ETP200 THIGH & GROIN SECTIONS
- Polyethylene outer shell
- Laminated EVA foam & L2500 EVA foam
- Mesh inner lining

HUEx100 HYDRATION SYSTEM
- Includes bladder and carrier
- High-quality, odorless bladder
- 70 oz. capacity
- Features Bite Me™ revolutionary flow control valve for 360° activation and leak free operation
- Compatible with both ExoTech® and Centurion® Riot Control Systems

KNP100 NECK PROTECTOR
- Offers heat, cut and abrasion-resistant protection for throat, neck and larynx
- Designed to be worn with Centurion™ and / or ExoTech® riot suits
- Comfortable stretch knit construction
- Made with Kevlar® fiber

KS19 PROTECTIVE SLEEVES
- Resists bites, scratches or cuts from sharp objects
- Design provides a moderate amount of heat, abrasion and cut protection
- Excellent for deploying flash bangs
- 2-ply, 7oz. Kevlar® fiber

   - MK-6: 12-14 SHORT BURSTS
   - MK-8: 5-7 SHORT BURSTS
   - MK-9: 14 SHORT BURSTS
   - MK-46: 26 SHORT BURSTS
Based on our ExoTech® line of riot suits, the MOLLE loop option allows for greater payload, allowing an officer to carry gear and accessories required for crowd management situations.

**ECB100/MOLLE VEST**
- MOLLE webbing to carry more payload
- Attaches to ECB100 Hard-Shell Upper Body
- Sizes: Small, Medium, Large, X-Large and XX-Large

**ETP200/MOLLE**
- Provides thigh and groin protection
- MOLLE webbing for versatile payload options
- Sizes: Small, Medium and Large

**EXOTECH ARM PROTECTION KIT**
- Attaches to any PROTECH® vest, not included
- 3mm polyethylene hard shell for protection from blunt force trauma
- Moisture-wicking fabric for comfort
- EVA foam & polyurethane sponge padding
- Riveted polypropylene connector straps
- Commercial-grade elastic adjustment straps with hook and loop fasteners
- Reflective label compatible

Shown with PROTECH plate rack, not included.
SOFT SHELL RIOT CONTROL SYSTEM

This protective piece is a must for riot control and cell extractions, effectively protecting the torso and shoulders from blunt force trauma. The lightweight, cellular pad design provides ample protection and allows excellent mobility. Includes attachment points for our HUEX100 Hydration System.

TR-1000
NON-BALLISTIC RIOT HELMET
- Durable injection-molded polycarbonate shell
- High-retention strap system with flexible chin cup and quick connect release buckle
- High density foam neck protector for added comfort
- Combi-Fit Pad System provides sizing options for most head sizes
- Weight: 3.6 lbs (1.63 kg)

INTEGRATED NON-BALLISTIC RIOT FACE SHIELD
- Molded polycarbonate for clear viewing area
- Brim extends outward for extra clearance to accept gas masks
- Dual liquid barrier which channels liquid back away from lens and away from field of vision
- Meets NIJ standard 0104.02 Riot helmet requirements

D4CC DELTA™ 4
CROWD CONTROL KIT
- Ballistic protection (NIJ 0106.01 Tested, modified to address Type IIIA rounds & velocities)
- Warrior/ACH (brimless) style: Mid-cut
- Aramid ballistic material
- Integral rubber seal for liquid barrier at the helmet/shield interface
- Shield locks for stowed or deployed positions with release by hand
- Pivot and lock assembly transferable to the right or left of the shield for individual preference
- .150” lens thickness
- 8” lens length
- Nape Curtain (Constructed of Cordura® nylon and high-density foam with chemical-resistant plastic shock absorbent pads)
**8210-3**

**8500-0**
**CUFF CUTTER**
- Can be used on any disposable restraint
- Pocket-sized for easy carry and storage
- Inexpensive and durable
**Hiatt® handcuffs** offer a variety of unique features designed to address the needs of today's law enforcement personnel. Our fast back-loading application allows an open cuff to be snapped back into place with a quick motion of the wrist and then reapplied without having to release the offender’s hand. With 18 teeth, 3 independent retaining bars with 6 teeth on each, we make it extremely difficult to pick, while providing increased strength as the shackle engages the additional teeth. Finally, True Swing Technology ensures the swing arm is balanced and centered so it locks into the center of the shackle every time.

**2010HD**
**DOUBLE KEY HOLE CHAIN STYLE**
Crafted from heavy-duty high carbon steel with reinforced steel swivels. Double key hole handcuffs make removing Hiatt handcuffs much easier. With key holes on both sides of the cuff, there is always one facing up for ease of access.

**2010H / 2015H**
**STANDARD CHAIN STYLE**
Made from top quality steel, the chain style model features reinforced steel swivels for added strength and durability.
- 2010H – Nickel Plate Model
- 2015H – Black Finish Model

**2050H / 2075H**
**STANDARD HINGE STYLE**
Crafted from high quality steel, the hinge style cuffs feature heavy-duty, solid hinges for reinforced holding power.
- 2050H – Nickel Plate Model
- 2075H – Black Finish Model

**2054H / 2055H**
**OVERSIZED HINGE STYLE**
17% larger than the standard model, oversized hinge style cuffs are ideal for restraining larger subjects who have trouble placing their hands behind their backs.
- 2054H – Nickel Plate Model
- 2055H – Black Finish Model
2103H / 2105H  
**RIGID STYLE NON-FOLDING**  
The Rigid handcuff provides a firm, comfortable grip that molds to the shape of your hand for added control and ease of application.  
2103H – Nickel Plate Model  
2105H – Black Finish Model

UL-1-H / UL-5-H  
**ULTIMATE – FOLDING STYLE**  
With heavy-duty construction this cuff features oversized rivet heads for added strength. Folds easily for storage.  
UL-1-H – Nickel Plate Model  
UL-5-H – Black Finish Model

8400  
**HANDBUFF KEYS**  
• Lightweight, oversized handcuff key  
• Textured grip allows solid grasp of key, even in wet conditions  
• 8400-1 features pocket clip  
• 8400-2 features key ring
**Metal Restraints**

**3103-H**
**LIGHTWEIGHT STELOY CHAIN HANDCUFF**
This chain style handcuff offers reinforced steel swivels for added strength and durability. The 3103-H Steloy is 40% lighter and 17% larger than standard cuffs. Constructed from a combination of aluminum and steel this lightweight model offers high strength without the extra weight.

**3154-H**
**OVERSIZED STELOY HINGE HANDCUFF**
Crafted from a combination of steel and aluminum known as Steloy, this lightweight hinge style cuff features solid hinges for reinforced holding power. This lightweight hinged model cuff is 40% lighter and 17% larger than a standard hinge handcuff.

**SAFARILAND TRAINING ACADEMY**

**MONADNOCK® DEFENSIVE TACTICS SYSTEM (MDTS) INSTRUCTOR COURSE**
This powerful two-day course shows you how to use your hands, elbows, knees and feet for protection against an attack, especially in close quarter battles (CQB). It relies heavily on practical hands-on applications and is intended for first responders who want instruction in how to use their personal weapons for self-defense and subject-control, for escort and handcuffing.

Contact the Safariland Training Group for details to take or host this course.
