

DEFENSE TECHNOLOGY®

**12-GAUGE FERRET® ROUND
LIQUID / POWDER
OC, CN, CS AND PRACTICE**

PRODUCT SPECIFICATIONS			
Diameter	12-Gauge		
Length	2.50 in / 6.35 cm		
Effective Range	50 – 100 yards / 45.7 – 91.4 meters		
Velocity	1000 fps / 305 mps		
Active Agent Liquid	OC	0.015 oz / 0.43 g	
	CN	0.05 oz / 1.4 g	
	CS	0.025 oz / 0.71 g	
Active Agent Powder	OC	0.002 oz / 0.06 g	
	CN	0.03 oz / 0.86 g	
	CS	0.03 oz / 0.86 g	
Discharge Time	Instantaneous on impact		
Part No.		<u>Liquid</u>	<u>Powder</u>
	OC	3010	3090
	CN	3011	3091
	CS	3012	3092
	P	3013	3093
Warranty	5 years from date of manufacture		

ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE

The Ferret® 12-Gauge Round is a fin-stabilized frangible projectile filled with chemical agent. It is designed to deliver chemical agents in barricade situations from a 12-gauge shotgun. It affords stand-off distance for safety.

The Ferret® 12-Gauge is non-burning and suitable for indoor use. Used primarily by tactical teams, it is designed to penetrate barriers, such as windows and hollow core doors. Upon impacting the barrier, the nose cone ruptures and instantaneously delivers a small chemical payload inside of a structure or vehicle.

In a tactical deployment situation, the Ferret® 12-Gauge is primarily used to dislodge barricaded subjects from very small confined areas. Its purpose is to minimize the risks to all parties through pain compliance, temporary discomfort and/or incapacitation of potentially violent or dangerous subjects.

The Ferret® 12-Gauge is available with either liquid or powder carriers for the agent. Liquid carriers provide additional weight over the powder carrier improving barricade penetration potential. Once delivered, powder carriers tend to keep the agent airborne longer than liquid carriers and may have more effect. Liquid carriers contain red dye to aid in shot placement.

Shot placement and trajectory considerations should be based on hardness of the barrier. However, accuracy is dependent on the operator and the condition of barrel (cylinder choke is recommended). Double-paned windows and heavy drapes will reduce or negate delivery of the chemical agent payload. **DIRECT FIRING THE FERRET® ROUNDS AT ANY INDIVIDUAL CAN CAUSE DEATH OR SERIOUS BODILY INJURY.**

⚠ WARNING

This product can expose you to chemicals including Lead Salts, Methylene Chloride and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm.
