Weight	5.95 oz / 168.68 g
Material	Aluminum
Finish	Black
Part No.	1370
Warranty	5 years from date of manufacture

ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE

The 12-Gauge #1370 Launching Cup / Stand-Off provides the operator with the ability of projecting the Pocket Tactical family of grenades (#1019-OC, #1015-CN, #1016-CS, and #1017 series Saf-Smoke™) further than can be hand delivered. The fuze should be removed prior to inserting the grenade into the launching cup, and then the open threaded end is inserted into the launching cup first. This increases the distance between operators and crowds, reducing the chance for injuries to both parties. Clouds of smoke or agent can be deployed to screen tactical movement or envelop a crowd from a distance. Release lines can be augmented with this type of deployment while also denying access to adjoining areas from a distance. The use of a launching cartridge (#1210) is necessary for each delivery.

The 12-Gauge #1370 Launching Cup / Stand-Off can also be used as a muzzle stand-off for the 12-Gauge Tactical Breaching Round / TKO (#3105).

WARNING: TO BE USED BY TRAINED LAW ENFORCEMENT, CORRECTIONAL OR MILITARY PERSONNEL WHO HAVE SUCCESSFULLY COMPLETED A TRAINING PROGRAM FOR THE DEPLOYMENT OF CHEMICAL MUNITIONS. IMPROPER USE OF THE CHEMICAL MUNITIONS CAN RESULT IN DEATH OR SERIOUS BODILY INJURY.
