OC/CS AEROSOL GRENADE

PRODUCT SPECIFICATIONS	
Diameter	2.62 in / 6.7 cm
Length	6.25 in / 15.9 cm
Fuze	M201A1 Type
Active Agent	OC 0.06% CS 1.0 gram
Discharge Time	3 Seconds
Launchable	No
Part No.	1050
Warranty	5 years from date of manufacture

ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE

Designed for indoor use, this grenade contains no CFCs, is not a fire hazard and requires minimal decontamination by comparison to smoke, powders, or liquids.

The Aerosol Grenade incorporates an M201A1 style fuze allowing the ability to toss the device without discharging its content in route to the target. Discharge time is exceptionally quick at three (3) seconds, virtually eliminating throwback potential. DUE TO ITS FRAGILE INTERNAL DESIGN AND WORKING PARTS, AVOID THROWING THE GRENADE IN A JARRING MANNER AGAINST HARD SURFACES.

The Aerosol Grenade is most commonly used in tactical situations by Law Enforcement and Corrections and was designed with indoor operations in mind when a non fire-producing delivery system is desired. It is most effective when used in confined areas and close to the target area.

The purpose of the Aerosol Grenade is to minimize the risks to all parties through pain compliance, temporary discomfort and/or incapacitation of potentially violent or dangerous subjects.

The Aerosol Grenade is ideal for cell extractions or barricade situations where the use of pyrotechnic, powder, or liquid devices is not practical or desired. The OC and CS combination provide sufficient effects in confined areas of up to 1,500 square feet.

The Aerosol Grenade is not recommended for outdoor use.

⚠ WARNING

This product can expose you to chemicals including Lead Salts and Hexavalent Chromium, which are known to the State of California to cause cancer, and Lead Salts, which are known to the State of California to cause birth defects or other reproductive harm.
