AEROSOL PROJECTOR

PROJECTOR SPECIFICATIONS

(Subject to change without notice. All specifications are averages.)

Material:	Aluminum (seamless construction) Part 178.33a Specification 2Q	
Height:	4.35 inches	11.0 cm
Diameter:	1.50 inches	3.8 cm
Warranty:	5 years from date of manufacture	

SAFETY: A protective, spring-loaded black plastic safety cover is attached to the upper portion of the outer casing above the actuator. The Flip Top actuator assists in directional holding, aiming, and discharging of the device during all light conditions. The cover prevents accidental discharge of the unit and conveniently moves out of the way with the approach of the thumb or finger to permit easy access to the actuator. No separate lifting motion is required to activate the device.

LABELING: Wear and water-resistant labels, individually serialized to permit easy identification, are affixed to all units. Lot numbers for formulation are present for quality assurance tracking.
