40MM LMTS TACTICAL SINGLE LAUNCHER

Manufactured exclusively for Defense Technology®, the 1425 40LMTS is a tactical single shot launcher that features the Rogers Super Stoc™ expandable gun stock and an adjustable Integrated Front Grip (IFG) with light rail. The ambidextrous Lateral Sling Mount (LSM) and QD mounting systems allow both a single and two point sling attachment. Users have the option of customizing the 40LMTS with an array of enhanced optics and sighting systems through the launcher's Picatinny rail mounting system. The 40LMTS will fire standard 40mm less lethal ammunition, up to 4.8" in cartridge length, but it is NOT designed to fire 40mm high velocity HE ammunition.

PART #	DESCRIPTION
1425	40mm single with expandable stock
1426	40mm single with folding stock
