The ExoTech® Complete Riot Suit offers a polyethylene exoskeleton for protection from blunt force trauma. This suit feature Flame Retardant Materials composed of the following. The mesh is 65% FR Polyester/ 35% cotton, and the second material is FR Lycra 100% Nylon on the chest piece that is embossed over the EVA foam. The Straps and Velcro is FR chemically coated. The shock absorbing padded inner layer is made of 2 materials, EVA foam and Thermopole. The inner EVA foam layer is internally stitched with a polyester mesh. EVA foam is firmly glued on both sides of Thermopole and stretchable spandex is pasted on the outside of this layer. The inner layer is distributed with multi shaped pads which provides easy mobility for the user.

*NOTE: ExoTech™ Riot Suit DOES NOT offer ballistic protection
