

# 12-GAUGE STINGER® 32 CALIBER RUBBER BALL ROUND

PRODUCT SPECIFICATIONS	
Diameter	12-Gauge
Length	2.44 in / 6.2 cm
Projectile Count	18
Velocity	500 fps / 152 mps
Minimum Safe Range	15 ft / 4.6 m
Maximum Effective Range	25 ft / 7.6 m
PROJECTILE SPECIFICATIONS	
Caliber	32
Diameter	0.32 in / 0.81 cm
Material	Rubber
Hardness	75 Durometer (A)
Weight	0.01 oz / 0.30 g
Part No.	3016
Warranty	5 years from date of manufacture
<b>ALL SPECIFICATIONS ARE AVERAGES AND SUBJECT TO CHANGE</b>	
<p>The Stinger® 12-Gauge, 32-Caliber Round incorporates a translucent shell loaded with approximately eighteen (18) rubber balls. The Stinger® 12-Gauge Round utilizes smokeless powder as the propellant.</p> <p>The Stinger® 12-Gauge Round is most widely used as a crowd management tool by Law Enforcement and Corrections in crowd control situations against single, non-compliant subjects. The Stinger® 12-Gauge Round is generally considered a low to medium pain compliance round for close range deployment.</p> <p>The Stinger® 12-Gauge Round is intended to be direct or skip-fired at the discretion of the operator, but it is necessary to keep the trajectory low so the projectile spread will not engage the subject above the breast line. When used in either manner, the operator should be adequately trained in the use of Less Lethal Impact Munitions and have a thorough understanding of the round and considerations for selecting shot placement such as level of threat, target distance, size, and clothing.</p> <p>As a pain compliance round for crowd routing, it is most suitable at close to moderate ranges of fire, approximately 15 to 25 feet. This round provides a solution for the non-aggressive, but non-compliant crowd prior to the use of more dynamic munitions. At closer ranges, this round will supply an impressive sting with little threat of injury.</p> <p>The Stinger® 12-Gauge Round is not suited as a dynamic, high energy, single subject round for the purposes of incapacitation.</p>
