

1370045 Wedge Cap Adapter

PATENT PENDING

Cap Adapters have been designed to be used in conjunction with batons originally equipped with a “Standard” cap, converting them to either a Wedge or Dome style. These adapters can be installed by the end user or agency with no special tooling or training necessary. With the standard cap removed, the desired Wedge or Dome adapter is slid into position over the standard cap and the new assembly is reinstalled as before.

Part ID #:See Below	Models
1370045	Wedge Cap Adapter
Function:	Tapered end cap design provides added baton retention, easier pick-up off a flat surface and draw from a holster
Height:	0.675” (1.72 cm)
Diameter:	1.565” (3.97 cm) - Friction Lock / Autolock
Finish:	Black hard coat anodized 6061-T6 Aluminum
Markings:	N/A
Quality Control Program:	In-process inspection at every operation plus 100% inspect and testing prior to shipment. In-process inspection consistent with US Department of Defense MIL-STD-105E and United Kingdom Defense Ministry specification DEF-131-A. All 4130 steel tubing has mill certification including the chemical analysis of steel. Cad drawing-exploded view available.
