 - Produces 170 dB of sound output at 5 ft
 - Produces 5 million candelas for 7.5 milliseconds
- Tactile feature on the nose of the cone to indicate designated distance

AERIAL WARNING/SIGNALING MUNITIONS

The Defense Technology® Aerial Warning/Signaling Munitions are designed for warning, signaling, and distraction in crowd control, vehicle checkpoint, and maritime security situations. The 40mm munitions are available with OC, CS, and Marking options and use a pyrotechnic delay to initiate the payload at specific ranges. Intended for use in environments where a stand-off distance is desired, these munitions give the operator the ability to engage individuals, vehicles, or vessels.
